## SKILLS

React Js, Redux, Hooks, Webpack, Babel, Parcel, JavaScript (ES6+), REST Api, AJAX, HTML, CSS, Bootstrap, Tailwind, jQuery, PHP, Postman, WordPress, Responsive Design, Cross-Browser Compatibility,MVC models, JIRA, Version Control (Git)

## PROFESSIONAL EXPERIENCE

BUGENDAITECH PVT. LTD.

JUN 2021 - FEB 2024

### React JS Developer

- Developed a large-scale, data-driven e-commerce website using React.js, implementing responsive design principles and integrating a Stripe payment gateway to enhance user experience and ensure secure transactions.
- Engineered and executed a REST API to synchronize job data between an AI-driven portal and the WordPress “Job Manager” plugin, enabling real-time updates and bidirectional communication, which boosted efficiency by 60%.
- Collaborated with a cross-functional team of 5, including UI designers, product managers, and backend engineers, to deliver high-quality, responsive web applications using React.js and Redux. Ensured seamless integration and cross-browser compatibility through proactive identification and resolution of dependencies and risks.
- Documented application changes and updates, maintaining clear and comprehensive records that facilitated a 30% reduction in troubleshooting time and improved team collaboration.
- Led a team of 3+ developers to create a user-friendly, fast-loading Medical Machinery Website from scratch with React.js. Utilized Agile methodologies to manage the project, ensuring timely delivery and client satisfaction, which resulted in a 30% increase in website traffic within 3 months.
- Participated in Agile ceremonies and followed the incremental delivery model, consistently meeting project milestones and delivering value to clients
- Provided training and mentorship to over 30+ interns and junior team members, supporting their skill development and contributing to overall team growth and productivity.

## PROJECTS

### HRMS PORTAL

- Delivered a multiplatform comprehensive HRMS solution using React.js and Redux, streamlining employee management processes and achieving an 80% improvement in overall efficiency.
- Created an enhanced responsive timesheet interface with React Hooks and Bootstrap, reducing submission errors by 80% and improving accuracy.
- Automated attendance tracking and leave management with custom React components and integrated REST APIs, resulting in a 90% increase in operational efficiency.
- Built an asset management functionality, reducing documentation workload by 90%.

### INTERN TRAINING MANAGEMENT SYSTEM

- Designed a user-friendly training management platform that streamlined processes for 100+ employees, automating training enrollment and attendance tracking, which resulted in a noticeable increase in on-time training completion rates.
- Enhanced platform engagement by 70% by implementing features with React components that allow interns to access recorded lectures, notes, assignments, and track attendance.
- Reduced manual efforts by 60% through the creation of an instructor-centric tool using React and REST APIs for performance tracking, assignment assessment, attendance management, and session scheduling.
- Streamlined HR management by 80% through a React-based solution that simplified intern tracking, experience certificate distribution, and training program management.
- Troubleshooted and resolved application issues swiftly, leading to a 20% reduction in downtime and enhancing user experience.
